## MESSAGE FROM THE EUSA PRESIDENT

Dear friends,  
My warmest welcome to all participants of the European Universities Games Lodz 2022.

**ADAM ROCZEK**  
EUSA PRESIDENT

words of thanks go to the Polish NUSA - AZS and the Organizing Committee of the Games for their support to Ukraine. Thank to the common solidarity actions, Ukrainian students can take part in the Games to compete in loyalty and respect with hope that principles of sport may be a guide to return to the world which we want.

The organisation of the Games in these given circumstances is challenging. It demands from the participants to act even more responsibly, and it demands everyone's commitment and contribution in making the Games safe and peaceful for each and everyone. The accountability of having such an event therefore lies in joint efforts of EUSA, the Organizing Committee and each of the participant.

Despite the challenges, I strongly believe that the 6th edition of the European Universities Games will offer an experience of a lifetime for student-athletes, officials and volunteers. That the Games are a place to meet new friends, a place to demonstrate the Fair Play attitude, and are a great recognition and celebration of university sport.

This event would not be possible without the trust and contribution given to EUSA and the Organizing Committee by the support of the various partners associated with this prestigious event. I thank them all from the bottom of my heart. The European Universities Games in Lodz are being organised under the licence of the European University Sports Association (EUSA) by the Lodz University of Technology, University Sports Association of Poland (AZS) and City of Lodz, in cooperation with the EUSA Institute and several partners, including the Ministry of Education and Science, national and local tourism organisations, Polish Olympic Committee, national and local sports organisation, media outlets and is also supported by the Erasmus+ Programme of the European Union.

**Best of luck for the Games to everyone!**

## MESSAGE FROM THE MAYOR OF LODZ

Ladies and Gentlemen,  
Welcome to the European Universities Games Lodz 2022. Two weeks of exciting competitions are ahead of us. The event will be attended by athletes, as well as coaches, judges, mentors and volunteers from all over Europe. This is a great academic event on the sporting map of our continent.

**HANNA ZDANOWSKA**  
THE MAYOR OF LODZ

Sport is a vehicle for fair-play rivalry, but at the same time it shows the power of unity. Combined with youthful enthusiasm, it will certainly bring a lot of emotions and thrills during the Games. These will be experienced during the competition in 21 disciplines, held in modern sports facilities that Lodz can boast of.

This year's European Universities Games may also become an important stepping stone to a great sporting career. Ambassadors of the competition - Olympic Games medallists, world champions and outstanding athletes and teams known all over the world - can confirm that it is worth choosing sport as a life path: athletes Kajetan Duszyński, Artur Partyka and Adam Kszczot, karate fighter Dorota Banaszczyk, basketball player Marcin Gortat, footballer Euzebiusz Smolarek, tennis player Kamil Majchrzak and volleyball teams PGE Skra Bełchatów and ŁKS Commercecon Lodz.

The date of the European Universities Games Lodz 2022 falls in July, so it is also a great time to take advantage of the offer of Lodz, which always welcomes young people. I am convinced that after the hardships of sports competition the participants of the Games will relax, enjoying the beauty of Lodz parks, strolling along the always vibrant Piotrkowska Street, admiring exotic animals in the modern Orientarium or visiting Księży Młyn or EC-1 and discovering the charm of the revitalised post-factory heritage of Lodz.

I would like to congratulate the organizers of the European Universities Games Lodz 2022 and I wish all the athletes, coaches, referees, tutors and volunteers a lot of satisfaction from participating in this unique event. May the summer of 2022 spent in Lodz turn into a lifetime of fond memories.

## MESSAGE FROM THE RECTOR OF TUL LODZ

Dear Guests,  
Welcome to the European Universities Games Lodz 2022 - a great celebration of university sport. I will proudly host you at Lodz University of Technology, one of the best technical universities in Poland.

**PROF. KRZYSZTOF JÓZWIK**  
RECTOR OF LODZ UNIVERSITY OF TECHNOLOGY

Sports values have been an important part of education for over seventy years. Promotion of active lifestyle, sport beyond divisions, social responsibilities, intergenerational relations and multicultural integrations are goals that, I would like to share with everyone, as co-organizer of EUG 2022.

Lodz University of Technology is a university that focuses on its development by creating infrastructural, organizational and financial opportunities for its employees, doctoral candidates and students. The organization of the European Universities Games is an example of development, outside the typical university pattern, of which I am very proud.

Among those involved in the organization process are Lodz University of Technology, the city of Lodz, the University Sports Association, but also the Marshal of the Lodz Voivodship, the Governor of Lodz and the following Lodz universities: University of Lodz, Medical University of Lodz, Grażyna and Kiejstut Bacewicz Academy of Music in Lodz, Władysław Strzemiński, Academy of Fine Arts, Leon Schiller National Film School in Lodz I hope that this joint effort will allow you to enjoy the Games to the full extent.

May the principle of fair play guide each participant during these Games, whether they are athletes or volunteers. I hope it will be a time of winning sports trophies and making friends.

May the two-plus weeks of July be a joyous time of student life, as this is what we missed most during the difficult two years of the pandemic.

**I hope that many of you will return to Lodz University of Technology and to Lodz.**

## MESSAGE FROM THE HEAD OF OC EUG 2022

Dear Athletes, Volunteers and Friends, on behalf of the Organizing Committee, I would like to welcome you to Lodz, Welcome you to the European Universities Games Lodz 2022.

**DOMINIK LEŻAŃSKI**  
COORDINATOR OF THE EUROPEAN  
UNIVERSITIES GAMES LODZ 2022

Together with a fantastic team of enthusiastic, creative people, we have prepared this wonderful event for you. The European Universities Games are a great opportunity to be together and experience the beauty of academic sport. I am happy to invite you to Poland and to Lodz, a welcoming and student-friendly place. I hope that this event will allow us all to broaden our horizons, learn about other cultures and promote a healthy lifestyle and fair-play.

The Organizing Committee is at your disposal. We will watch over your safety and guarantee a great time. I believe that thanks to well-prepared events you will achieve the best results, and that the friendships you make while participating in the European Universities Games will last for the rest of your life. The last months have been a very intense time for the entire EUG team to ensure that this event is at the highest possible level. We took care of every detail of your stay in Lodz, and we hope you will feel comfortable here. I am convinced that you will remember Lodz as a welcome city, and your memories of sports competition will stay with you forever. I sincerely hope that your sporting motivation will be equal to that of the Organizing Committee. I promise that during these two weeks you will find Lodz best sides. What can you do for Lodz? Take your best memories back to your countries. According to the motto of the EUG Lodz 2022, we are full of possibilities.

**I look forward to spending a wonderful time together. Lodz, WE CAN!**

# ABOUT EUSA

The European University Sports Association (EUSA) is an umbrella organization that comprises of National University Sports Associations (NUSA) from 47 European countries, providing sporting activities, educational events, and expertise in policy making and programming. The organization is well known within the sector as a safe and strong voice for University sports in Europe, promoting fair play values, and supporting their membership by partnering with European Sports Federations and lobbying within the European Union, the Council of Europe and other institutions for funding to improve the provision of sport. EUSA is a proud and active associated member of the International University Sports Federation (FISU), strategically cooperating also with other Continental University Sports Federations (CUSF), as well as key governing bodies and organisations active in the field of sport, education and youth.

Since its founding in 1999, EUSA has organised 15 seasons of the European Universities Championships, attracting over 38.000 student-athletes to 174 university competitions held across Europe. In four previous editions of the European Universities Games, almost 15.000 student-athletes from over 400 different universities across Europe have participated in the 54 different sporting competitions organised during these multi-sports events.

Through its Institute, EUSA also engages in several social responsibility projects and initiatives on various topics, including Anti-Doping, Dual Career, Equal Opportunities and Inclusion, Good Governance, Mobility, Safeguarding, Skills Development, Sustainability and Volunteering. Many of the projects are supported by the European Union.

## EUSA EC, COMMISSIONS, AND OFFICE

Highest body is the General Assembly, comprised of representative of the member associations, electing the Executive Committee. Its members are responsible for the administration and running of EUSA and the execution of main directives taken by the Assembly. EUSA Executive Committee is comprised of 15 members, lead by the President Mr Adam Roczek, 1st Vice President, four Vice-Presidents, Treasurer and Secretary General. Various EUSA commissions are in place to provide assistance and guidance to the many different activities EUSA is involved in. These include the Control Commission, Education Commission, Inclusion and Diversity Commission, Medical Commission, Student Commission, Technical Commission and also other working bodies.

EUSA's Office and the EUSA Institute are located in Ljubljana, Slovenia.

## EUC2023

EUSA started with the **European Universities Championships** in 2001, with competitions in 2 sports, and the championships' programme has been steadily growing in number of sports and participants ever since. In 2019, during the last season of the EUSA Championships, 5242 participants formed 1032 university teams, representing 570 universities from 43 countries, taking part in 21 sports. In 2023, we will see the next season of the European Universities Championships, featuring 20 sports, being organised across Europe:

SPORT	LOCATION	PLANNED DATES
3X3 BASKETBALL	DEBRECEN (HUN)	JULY 15 - 19
BADMINTON	MISKOLC (HUN)	JULY 10 - 16
BASKETBALL	AVEIRO (POR)	JULY 23 - 30
BEACH CHAMPIONSHIPS: BEACH VOLLEYBALL, BEACH HANDBALL	MALAGA (ESP)	SEP 19 - 25
COMBAT SPORTS: KICKBOXING, TAEKWONDO, JUDO, KARATE	ZAGREB (CRO)	JULY 20 - 23
FOOTBALL	TIRANA (ALB)	JUNE 25 - JULY 2
FUTSAL	SPLIT (CRO)	JULY 18 - 26
GOLF	FERRARA (ITA)	SEPTEMBER 6 - 10
HANDBALL	PODGORICA (MNE)	JULY 8 - 14
ORIENTEERING	ST. GALLEN (SUI)	AUGUST 24 - 27
ROWING	BYDGOSZCZ (POL)	SEPTEMBER 7 - 10
RUGBY 7S	LISBON (POR)	SEPTEMBER 11 - 14

## PHILOSOPHY

European Universities Games – this is the flagship event of the EUSA (European University Sport Association). The EUG takes place every 2 years in different European cities.

**Concept:** University teams, multiple sports events at the same place at the same time, bringing together sport, education and culture, taking place biannually

**Compulsory Sports:** 3x3 Basketball, Badminton, Basketball, Football, Futsal, Handball, Table Tennis, Tennis, Volleyball

**Optional Sports to Choose From (min 3):** Beach Handball, Beach Volleyball, Bridge, Chess, Golf, Judo, Karate, Kickboxing, Orienteering, Rowing, Rugby 7's, Sport Climbing, Taekwondo, Water Polo

**Previous Demonstrative Sports:** Canoeing, Swimming

**Previous Para Sports:** Para Swimming, Para Table Tennis, Sitting Volleyball

## PAST & FUTURE EVENTS

Past Events:

**European Universities Games Cordoba 2012**

**European Universities Games Rotterdam 2014**

**European Universities Games Zagreb and Rijeka 2016**

**European Universities Games Coimbra 2018**

**European Universities Games Belgrade 2020 / cancelled due to Covid-19**

Next Attributed Events:

**European Universities Games Lodz 2022**

**European Universities Games Debrecen and Miskolc 2024**

**European Universities Games Salerno 2026**

## ANTI-DOPING POLICY

Doping is not a guarantee of success in sport. In fact, its effect is usually the opposite. A lot of elite sportsmen and sportswomen who did doping got caught. As a result, they lost pride and were banned for at least 2 years from participating in a sport they loved and lived for. An even bigger problem of doping are the effects on the body. In elite sports, doping is defined as a violation of one or more anti-doping rules:

1. Presence of a prohibited substance in an athlete's sample
2. Use or attempted use of a prohibited substance or method
3. Refusing to submit sample collection after being notified
4. Failure to file athlete whereabouts information & missed tests
5. Tampering with any part of the doping control process
6. Possession of a prohibited substance or method
7. Trafficking a prohibited substance or method
8. Administering or attempting to administer a prohibited substance or method to an athlete

You can find the list of prohibited substances and methods on the internet. It's updated every year by the World Anti-Doping Agency (WADA) and it's valid for every sport. You should check every substance you are taking. Athletes need to completely avoid steroids, erythropoietin (EPO), stimulants, human growth hormone (HGH), marijuana and narcotics, and pay special attention also to dietary or nutritional supplements.

EUSA is active in Anti-Doping promotion, and has been a partner in the European Anti-Doping Initiative (EADIn) and Match point, supporting European-wide Anti-Doping mentality in the youth sector by establishing a moral tenor towards concepts such as Fair-play, sensitizing and raising awareness on all levels of the complex social environment surrounding the doping problematic and implementing strategies to motivate young people to pass on the message and create a strong multiplying effect. Also, the International University Sport Federation (FISU) has been actively promoting sports without drugs, also on university sport level.

EUSA is currently not enforcing doping tests at our events. In accordance with the national legislation of the host countries, however, doping controls may be implemented by the National Anti-Doping Agencies. If such doping tests are executed, the WADA rules and regulations are applicable to all athletes. Please remember that testing can be conducted in-competition and out-of-competition. If you are identified in a Registered Testing Pool (RTP), you must provide current and accurate whereabouts information.

What can you do to be an excellent sportsman or sportswoman?

- Practice right and live healthy
- Get more information about consequences of Doping
- Play fair and be a good role model to younger athletes
- Be committed to sport without doping

## EUSA INCIDENT POLICY

One of The Fundamental Principles of Olympism is that "practice of sport is a human right" and that "every individual must have the possibility of practising sport, without discrimination of any kind". This principle further states that this requires a behaviour based on "mutual understanding with a spirit of friendship, solidarity and fair play". EUSA considers sports as an active tool in the education of university students, and aims at encouraging and supporting "the promotion of ethics, Fair Play, gender equity and good governance in sport" (EUSA Statutes). With the EUSA Incident Policy, EUSA clarifies the expectations, and consequences, regarding the behaviour of different stakeholders at EUSA's events to allow the creation of a safe and enjoyable environment.

## FAIR PLAY

Fair play is deeply embedded in the values of EUSA. The objective of promotion and encouragement of Fair Play is already set in the statutes of EUSA, as part of the core objectives of the organisation. Partnership with the European Fair Play Movement in 2013 proves this even more. Since 2007, EUSA announces the best gesture of fair play in its sports event for the current year and awards the winners the special fair play recognition, Enno Harms Fair Play Award, named after the first EUSA President, a person very much devoted to fair play. At every EUSA sport event, the organisers, EUSA representatives, and technical delegates pay special attention to the fair play gestures and attitude throughout the duration of the event. By participating at an EUSA sport event, participants are thereby swearing on an oath of respect and fair play. The oath is announced to the world by the student athletes, and by the officials before the official opening of any EUSA sport event. In 2017, EUSA introduced the Fair Play green card at the European Universities Football Championship as a result of the close cooperation with the European Fair Play Movement. We are proud to see a successful introduction of this green card, which further promotes the values of Fair Play and good sportsmanship gestures on the field.

The prestigious annual EUSA Enno Harms Fair Play Award is awarded to athletes demonstrating fair play during the matches, following the rules and pursuing a "clean" game are awarded with a fair play recognition already during the event. EUSA Executive Committee members discuss the proposals received from all sporting events governed by EUSA in that year and select the team or individual to receive the Enno Harms Fair Play award which is formally handed to them at a special occasion – usually at EUSA Gala.

## COVID19 REGULATIONS

Participants are required to have been vaccinated against COVID-19. Exemption applies to the participants who have recovered from COVID-19, and to the participants who are exempt from vaccination for medical reasons.

The fulfilment of the conditions set out in the previous sentence is defined by the legislation of the residence country of each participant.

All participants have to comply with the host country guidelines and regulations related to these Regulations, entering into force immediately after being approved by the EUSA Executive Committee on May 27, 2022, and replace previously set regulations.

All COVID-19 travel restrictions were lifted in Poland. Providing proof of vaccination, recovery from COVID-19 or a negative test result is not required to enter the country.

Currently the only rule in force at the territory of Poland is the requirement to wear facemasks in medical facilities and pharmacies.

Upon arriving in Lodz, all participants will be required to provide undersigned statement confirming vaccination, recovery from COVID-19 or exemption from vaccination for medical reasons. The statement will be available as the part of COVID-19 protocol.

Failing to provide the statement will result in person not being accredited and not being able to participate in European Universities Games 2022.

In case of COVID-19 symptoms the participant will be tested and, if the result come positive, will be put into isolation for 7 days. The isolation period can be shorten in case of another test coming negative.

More information can be found in EUG 2022 COVID-19 protocol.

# General information

About Poland

About the host city of Lodz

Lodz University of Technology

University sport in Poland

## ABOUT POLAND

Poland. It is here that you will find the biggest sand dunes in Central Europe. It is here that the largest complex of lakes and the world's oldest oil well are located. It is in Poland that a reenactment of the greatest battle of medieval Europe takes place. Finally, it is here that you can see the longest wooden pier in Europe. Poland offers more than you think: 16 UNESCO sites, excellent cuisine, wild and diverse nature, as well as stunning cities filled to the brim with stories.

Gigantic metropolis, historic towns and villages of sentimental charm for which poems and songs have been written. The main cities are not only the capitals of their fast-developing regions but also have their own unique and... delicious character! If you are more nature-lover, you can discover many sites of nature in Poland that are unique, not only across Europe but the globe as well. Białowieża Forest is Europe's last backwoods, where you can encounter the European bison now rescued from extinction. Masuria, known as the land of lakes, came 14th in the New 7 Wonders competition. The Wieliczka Salt Mine's deposits are a natural phenomenon, and the mine itself is a world cultural monument on UNESCO's World Heritage list. You can feel free on Poland's coastal beaches. Next to man-made resort beaches, there are wild, often bare sections of the coast where you can freely walk, run, ride horses or search for the priceless treasure of the Baltic Sea – amber. It is worth exploring the world of Polish nature actively – by doing sports either recreationally or competitively, on land, water or in the air, all year round. There are many places to visit and things to do and to experience in Poland that you did not know about. You can find everything here. See for yourself!

[www.pot.gov.pl/pl](http://www.pot.gov.pl/pl)

Lodz is the third largest city in Poland. Situated in the centre of the country, it used to be a huge industrial centre. Textile products manufactured in Lodz could be found on markets all over Europe. Today it owes its splendour to a thorough revitalisation of the urban fabric and a change in the direction of development. Lodz is a strong academic centre and an attractive tourist destination.

Lodz is a city of contrasts, which intrigues at almost every turn. It is full of factories and at the same time very green, eclectic and avant-garde. Lodz dazzles with the splendour of its palaces built by industrialists and amazes with its artistic installations.

Although the history of the city goes back six centuries, the dynamic development of Lodz took place less than 200 years ago. From a small settlement at the beginning of the 19th century, it soon became the „promised land” giving tens of thousands of families hope for a better tomorrow. In the city space you can find numerous traces of the multicultural workers’ melting pot. Lodz was such a melting pot until World War II. Afterwards, becoming the film capital of Poland, it opened another important chapter of its history.

In 2017, it was accepted into the UNESCO Creative Cities Network as a City of Film.

Today, Lodz is a creative city, a city of festivals, a city being completely rediscovered. It lies in the very heart of Poland, at the crossroads of major motorways - one could say that all Polish roads lead to...Lodz.

## MEET THE CITY - THE HOST OF THE EUROPEAN UNIVERSITIES GAMES 2022.

### Things to see:

**Piotrkowska Street** The queen of Polish streets - a several-kilometre-long passage surrounded by historic, eclectic tenement houses full of local shops, restaurants, cafes, pubs and clubs.

**Manufaktura** Unique in the world shopping and entertainment centre in a huge, historic factory from the 19th century. Shops, restaurants, museums, cinema, theatre and much more.

**Księży Młyn** Historic factory and residential complex from the end of the 19th century. Today it is a quiet and still revitalized part of the city with cosy cafes.

**Litzmanstadt Ghetto** The memory of one of the largest German ghettos is nurtured by numerous monuments, parks, the Dialogue Centre and the Jewish cemetery in Bałuty.

**EC1** is the cultural and educational centre of Lodz! Today, the former power plant houses a Planetarium, a Science and Technology Centre, playrooms and a conference centre.

You can find more attractive places in Lodz on the tourist portal [www.lodz.travel](http://www.lodz.travel)

**U**niversity Sports Association (AZS) is the largest sports association in Poland operating continuously for more than a century. It was established in Krakow in 1909 and from there it spread to all academic canterers in the country. Thanks to its rich history and continuous activity, it has become the most numerous student organization present in Polish universities. Today AZS is an association with more than 30,000 members affiliated in nearly 200 university clubs, sports and community organizations. It currently develops its activities in many areas: general sport, competitive sport and sport for people with disabilities. The programmes carried out are not only focused on the academic community - the AZS increasingly conducts projects for children, young people, families and seniors.

The organisation's key competitions include the Polish Academic Championships - the largest series of sports competitions addressed to the academic community, comprising 35 sports disciplines, with almost 20 thousand participants each year. Every year, the AZS Polish Disability Championships - a project whose recipients are students with disabilities from different academic backgrounds - grows. Currently, there are more than a dozen events a year, in which several hundred people take part.

The strongest showcase of AZS is qualified sport. AZS athletes are world sports stars and reach for the highest level of achievements during the most important events, making up on average one third of the Polish national teams. They win medals at all major competitions, including the European and World Championships and the Olympic Games. In 2021 many AZS clubs could celebrate great results in Tokyo. AZS AWF Katowice had as many as five medallists (Anita Włodarczyk, Justyna Święty-Ersetic, Paweł Fajdek, Karol Zalewski, Justyna Iskrzycka). AZS AWF Warsaw (Agnieszka Kobus-Zawojcka, Dariusz Kowaluk) and AZS UMCS Lublin (Małgorzata Hołub-Kowalik, Malwina Kopron) had two medallists each, and AZS AWF Wrocław (Natalia Kaczmarek) had one, AZS UMK Toruń (Katarzyna Zillmann), AZS AWF Krakow (Maria Sajdak), AZS Łódź (Kajetan Duszyński), AZS Opole University of Technology (Dawid Tomala), AZS AWF Gorzów Wielkopolski (Anna Puławska) and AZS PWSZ Tarnów (Michał Derus).

We have also been successful on world and national arenas in junior sports. Every year, our teams occupy top positions in the children and youth sports competition classification in Poland (the majority of the top ten are AZS clubs, with AZS AWF Katowice as the repeat winner).

The organization is strongly involved in training activities and the dual career development of student-athletes through programmes implemented in cooperation with local AZS units, universities and the Ministry of Sport and Tourism, as well as the Ministry of Science and Education. Key among these are the Academic Sports Training Centres and the National Academic Team - a programme that makes it easier for athletes to combine study with sport.

As a member of the International University Sports Federation (FISU) and the European University Sports Association (EUSA), AZS also actively participates in the system of global academic competition. Our athletes successfully compete in the European University Championships and the European Universities Games (over 400 medals altogether), the World University Championships (AZS has already 636 medals!), as well as in the biggest sport events for students: summer and winter Uniwersiade (530 medals). AZS is also involved in the organization of many sporting events of the mentioned federations. In 2022 it is part of the organizing team of EUSA Games Łódź 2022, and the Academic Club AZS UKW Bydgoszcz will host the World University Championships in Classical Canoeing.

The effort and commitment earned the organization exceptional accolades. EUSA has rewarded AZS as the best federation of the season several times, and in 2017 it was recognized by FISU as the best federation of student sports in the world. However, AZS doesn't rest on its laurels and develops further areas of activity adapted to the contemporary expectations not only of the academic community but also of society as a whole.

Lodz University of Technology is one of the best technical universities in Poland. Located in the city centre, it is situated in modern buildings and revitalised industrial buildings from the 19th century. The campus also includes places for interdepartmental education, sports and recreational activities, entertainment and various organisations supporting student life. TUL is an attractive partner for business. It cooperates with the largest companies across Europe, which use new technologies and patents created at the university. Many of them are the result of cooperation with research centres from all over the world. TUL is among the most attractive employers in Lodz and the region. It is the first Polish technical university to receive the HR Excellence in Research logo, which is awarded as a distinction to institutions for their actions undertaken for the benefit of academic staff. Lodz University of Technology is open to the local community: children, young people and seniors. Everyone can take advantage of the rich educational offer.

# VOLUNTEERS

Volunteering is a great opportunity to test your skills and carry out tasks in accordance with the field of study (logistics, management, foreign languages, modern technologies, tourism), as well as try your hand at organizing a large sports event. For some, it can become the adventure of a lifetime. An excuse to make many new acquaintances and have a fantastic time. Volunteering is also a great way to spend your holidays. In addition to operating in one of the many areas of the event, volunteers will have the opportunity to take part in accompanying events – sports competitions, seminars or trainings.

- Accommodation provided for 600 Volunteers
- 250 international Volunteers
- Full board and transport from Warsaw International Airport Chopin for international Volunteers
- 20 Volunteers coordinators and leaders
- 13 areas of volunteering support (logistics, sports, results, team attache and more)
- Volunteers from National University Sport Associations from all over Europe

# VISION & MISSION

### Many teams with a common goal

The aim is to organize the European Universities Games as a modern sporting event embedded in the local and global values of the world we live in. We believe that through sporting competition, social responsibility and sustainability we can together connect and address the needs of all participants and spectators of the Games!

### Our values

- Promotion of an active lifestyle
- Fair Play
- Sport beyond divisions
- Social responsibility
- Care for identity and traditions
- Development cooperation
- Intergenerational relations
- Multicultural integration

## PARTICIPANTS WITH DISABILITIES

Programme of Disability Championships:

Co-funded by  
the European Union

- Para table tennis in the sport programme;
- Sitting volleyball and para weightlifting as a promo events;
- Series of educational seminars on sport of people with disabilities;
- Sharing of good practices in the university sport context;
- Workshops for volunteers on sport of people with disabilities;
- Promotion of Disability Championships;

## VISUAL IDENTITY

The EUG 2022 logo combines sport, industrial character of Lodz and innovation in line with the spirit of the technical university. The logo was inspired by the logotype of the City of Lodz - a European metropolis. You can see references to the avant-garde typeface of Władysław Strzemiński - a Lodz artist and art theoretician. Dynamic crossing lines symbolize competing athletes. Intersecting elements are also associated with a well-functioning mechanical transmission. The colours were borrowed from the city's visual identification system. Each colour is assigned to one of the values of the EUG 2022: cyan - sustainability and ecology, magenta - sport for all, yellow - the academic character of the city, and black&white - innovation and creativity.

### EUGenio

The mascot of the European Universities Games is **Eugenio** associated with the contemporary infrastructure of Lodz. In 2015, the main city stop was opened in the centre of Lodz, connecting tram lines from all over the city. The unique Art Nouveau architecture, combined with a colourful stained glass window at the vault of the structure, was named "Unicorn Stable" by Lodz inhabitants. On June 7, 2019, a monument to a unicorn by Japanese artist Tomohiro Inaba was erected nearby. Internet users were involved in the process of choosing the Games mascot from the beginning, sending in their designs and submitting their concepts for the EUG2022 mascot. Finally, 5 projects were selected, from which, as a result of voting, EUGenio was selected! Eugenio, or more precisely Eugene, is a name of Greek origin, which means „noble or noble-born“. The always smiling unicorn is a friend of all athletes and students. He always cares about a good atmosphere and fair-play.

## VISA PROCEDURE

Depending on the direction from which you arrive at EUG2022 in Lodz, you will need various documents confirming your identity, citizenship and purpose of travel.

If you are an EU citizen (Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Malta, the Netherlands, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden) or a Schengen Area country (Switzerland, Liechtenstein, Norway and Iceland), or a citizen of the United Kingdom - the condition for entry to the Polish is to have a valid travel document (passport issued no earlier than 10 years ago, valid at least 3 months before entry) or other valid document confirming identity and citizenship.

**If you are an Israeli citizen, you can enter the Polish under the visa-free regime.**

**If you are a citizen of Ukraine, Albania, Bosnia and Herzegovina, Macedonia, Montenegro, Serbia, Georgia, Moldova, Kosovo you can travel to Polish without a visa for up to 90 days within 180 days. However, you must meet the condition – you must have a biometric passport. Otherwise, you will be required to have a visa.**

**If you are a citizen of Turkey, Azerbaijan, Armenia, you are required to have a visa. The uniform Schengen C visa entitles you to stay in the Polish and to move around the entire Schengen area.**

More information on this topic can be found on the official website of the Border Guard in terms of visa requirements:

[www.strazgraniczna.pl](http://www.strazgraniczna.pl)

or on the website of the Office for Foreigners

[www.gov.pl/web/udsc-en](http://www.gov.pl/web/udsc-en)

## USEFUL INFORMATION

**Official language:** Polish

**Time zone:** Poland is located in the Central European time zone (GMT + 1 / UTC + 1 hour)

**Climate:** Poland has a moderate continental climate, with fairly cool winters (from December to March) and hot summers that last from June to August. In July and August, average temperatures range from 16.5° C (62°F) to 19° C (65°F), although temperatures can be as high as 35° C (95°F) for several days.

**Currency:** 1 zloty (PLN) = 100 groszy (current exchange rate: [www.nbp.pl](http://www.nbp.pl))

**Area code:** + 48;

**Internet domain:** .pl

**Opening hours:** most shops are open from 6am to 10pm.

**Important telephones**

**Police:** 112; 997

**Emergency medical Services:** 112, 999

**Fire service:** 112, 998

**Tap water is safe for drinking in Lodz**

**EUG app**

EUG application is an indispensable tool for each of the participants of the European Universities Games. The information it contains will make it easier, among other things, to get around Lodz, find dedicated bus lines leading to competition venues and attractions.

One of the functionalities it offers is booking the training halls or transport service.

Each app user has access to the agenda, FAQs and notifications provided by the organizers.

The app can be downloaded from Google Play and the App Store for Android and iOS devices, under the name EUG2022.

**Internet wifi connection - THE EDUROAM network**

During EUG there will be available WiFi connection based on the Eduroam Network. To access it participants need to use login and password acquired from their home universities.

EDUROAM (education roaming) is the secure, world-wide roaming access service developed for the international research and education community.

Eduroam allows students, researchers and staff from participating institutions to obtain Internet connectivity across campus and when visiting other participating institutions by simply opening their laptop.

**THE EDUROAM WIFI ROAMING SERVICE IS FREE-OF-CHARGE TO USERS.**

Eduroam is available in 36 countries out of 38 participating in the EUG. For participants from Bosnia and Herzegovina and Kosovo individual QR codes will be provided at the Accreditation Center.

All participants need to check whether their university uses the EDUROAM network and ask at their native university for login details!

There will be a limited number of guest accounts available for those without personal account at EDUROAM.

Participants can acquire the guest account at EUG Accreditation Centre.

No other WiFi connection will be provided during EUG.

There are some free WiFi spots across the city of Lodz, but they are scattered.

**To get access to the EDUROAM Internet Network you need to:**

1. Activate the WiFi radar on your smartphone or laptop.
2. From the list of available networks, select „eduroam”.
3. Log in with your login and password from your native university.

# ACCREDITATION PROCEDURE

The purpose of accreditation is to identify people and their roles at the European Universities Games and allow them necessary access to perform their roles. Accreditation is not an external sign of a privileged status but is a necessary working tool to manage the large numbers of people participating in the European Universities Games and facilitate flexible and secure movements.

Accreditation ensures that only the appropriately qualified and eligible people are entitled to participate in or perform official functions at the European Universities Games, limits participants' access to areas they need to go to perform their official functions and keeps unauthorized people out of secure zones.

European University Sports Association (EUSA) determines the persons entitled to accreditation and sets the conditions for its granting and issuance. EUSA through the OC, grants the right to accreditation to all people who have a recognised official function to perform at the Games. It is the duty of the OC to produce the cards and in coordination with EUSA deliver to the persons entitled to them.

## Rules of Procedure for granting accreditation during the European Universities Games Lodz 2022

**1.** The Organizing Committee of the European Universities Games Lodz 2022 is responsible for preparing and issuing accreditation to the participants of the event. The Accreditation Centre is located in the building of the Institute of Physics of the Technical University of Lodz.

**2.** These regulations apply to the accreditation process for the games and accompanying events of the European University Games from 14-31 July 2022.

**3.** The Accreditation Card is a document issued to the participant by the organizer confirming the identity of the participant. The participant should have the Accreditation Card at all times during the event.

**3a.** The Accreditation Card should be placed in a conspicuous place for the organizer and the security services.

**3b.** The Accreditation Card entitles the holder to transport during the EUG, accommodation, meals and admission to sports facilities.

**3c.** A participant of the EUG 2022 is required to present the Accreditation Card each time when asked to do so by the Organizer or the security services.

**3d.** It is prohibited to transfer the Accreditation Card to third parties.

**3e.** In case the Accreditation Card is lost, the participant shall bear a cost of EUR 50 for issuing a new Accreditation Card. A request for a new Accreditation Card is submitted by the HoD (Team Leader/ Mission Leader).

## Accreditation Card

Information to be included on the accreditation:

- contact information OC
- emergency numbers
- address of the accommodation facility

# ACCREDITATION PROCEDURE

There will be 3 types of accreditation cards:

**1** – for the registered participants, OC and volunteers

**2** – for the contracted staff (“Workforce”) with limited number of personal data

**3** – temporary accreditations for last-minute invited guests and people who didn't manage to go through the accreditation procedure due to late arrivals

If you have questions regarding the registrations, please check the guidelines:

[www.eusa.eu/media/documents/registrations-guide](http://www.eusa.eu/media/documents/registrations-guide)

For questions connected to the Rules & Regulations, please check the following document.

[www.eusa.eu/media/documents/eusa-events-rules-regulations](http://www.eusa.eu/media/documents/eusa-events-rules-regulations)

- For the questions related to the organization of the event (accommodation, transportation, catering, etc.) please contact the Local Organizing Committee in Lodz: [registration@eug2022.eu](mailto:registration@eug2022.eu)
- For the questions related to the right of participation, please contact your National University Sports Association: [www.eusa.eu/eusa/members](http://www.eusa.eu/eusa/members)

## CATERING

There are five catering zones for players, volunteers and judges. The locations of the zones have been adapted to the accommodation of participants from each discipline.

Access to the zones will require QR and RFID codes placed on the accreditation cards.

Coffee breaks (coffee, snacks, cold drinks) are planned for the judges at the competition venues.

We provide water for all participants, judges and referees.

For athletes: 4 bottles of 0.5l in sports venues per day and 0.5 l with every meal in the catering area.

For judges and referees: 3 bottles of 0.5l in sports venues per day, drinks in the judges' rooms during a coffee break, 0.5l with each meal in the catering area.

VIP & EUSA will receive water in EUSA office, in OC office, conference rooms in Zatoka Sportu.

Tap water is safe to drink.

All plastic bottles will be collected and recycled. Special bins will be provided.

## ACCOMMODATION

The Organizing Committee has carefully selected accommodation for all of our expected and accredited guests – athletes, officials, volunteers, EUSA Family, VIP guests, referees, judges, EUSA members – who will be staying at the Student Campuses, in dormitories and official hotels.

Accommodation area is located in the Lodz district, well connected with the majority of the competition venues, training areas and which is also close to the Lodz centre, cultural attractions, shopping centres, bars and clubs that offer bustling nightlife. All athletes and officials will be staying in the same accommodation site – the Student Campus of Lodz University of Technology and the Student Campus of University of Lodz. The high-capacity student dormitories were selected in hopes that competing in Lodz will also be the time of forming new memories and friendships with fellow sportsmen from all over Europe. Both our Student Campuses consist in total of 10 residential buildings (blocks of flats). Each block has its own entrance, info desk, reception desk (24 hours) and most have lifts. The Student Campus offers three types of rooms – single, double and triple rooms. Every residential block will have its own info desk located in the main lobby area, next to the reception. Trained volunteers will provide necessary information and assistance to all participants (competition, transport, menus, restaurant opening hours, extra services, etc.). Info desks working hours are from 08:00 until 22:00. Laundry service will be available at each Student Campus point, where our athletes can use it and pay laundry fee per official pricelist. The accommodation rules with important information will be available in every room.

All hotels dedicated to our other guest are close to each other and in the vicinity of the TUL Student Campus, as well. Hotel Holiday Inn (4\*) will accommodate the EUSA family, NUSA members and NUSA VIP members. The hotel has 127 rooms, 8 meeting rooms, an open lobby, a terrace, a gym and 70 parking lots. Holiday Inn is located in the very centre of the city on famous Piotrkowska Street. Hotel Base Camp (in standard 3\*) opened in 2020 will accommodate judges and referees. The total number of rooms is 600; there are 10 meeting rooms, a gym and 40 parking lots. Base Camp is located near the TUL Student Campus and in the proximity of the centre of Lodz.

### Check-in procedure

The check-in procedure will take place after an accreditation process in the Accreditation centre (passport and eligibility control, finances and rooming lists, etc.). The reception of guests will be performed in every Student Dormitory. The room keys will be given to the Head of Delegation (HoD) at the reception and the receipt of keys must be confirmed by the HoD with a signature. At the reception, the HoD receives the so-called Statement List to enumerate possible deficiencies or damage during the room inspection done by the HoD and accompanied by the host.

### Check-out procedure

The head of delegation needs to announce the check-out of the teams or individual athletes one day prior to the departure. The HoD's obligation is to inspect all rooms and return keys in a described manner. The room inspection will take place in the presence of the HoD and host of each dormitory. If there is no damage done, the HoD's with his/her team can leave the accommodation. If some damage is done, our host and HoD are obliged to fill out a damage fee form, which will be sent to the University representatives and deducted from each University. The amount of damage caused is determined according to the official pricelist of the dormitory.

# TRANSPORTATION

During the European Universities Games, transport services will be carried out using the following modes of transport:

- high-class coaches,
- city buses,
- minibuses,
- vans,
- passenger vehicles,
- trains.

Transport will be organized to all places where competitions and trainings will take place at least 500 meters from the athletes' village.

All vehicles used for transport are air-conditioned and may vary in size and capacity depending on the type of vehicle and the target group.

**The entire transport organisation during the European Universities Games has been divided into the following segments:**

- transfers from the airport to the accreditation zone,
- transfers to the hotel, sports village,
- transfers to the airport from the hotel and the athletes' village.

## Transfers from the airport

- the Organizing Committee provides transport to Lodz only from the Frederic Chopin Airport in Warsaw,
- You will find our stands in the Arrival Hall, in front of Exit 1 and Exit 2.

# TRANSPORTATION

## Shuttle transfers:

- timetable from 07:00 to 23:00,
- frequency of departures 20 minutes,
- timetable in accordance with events in sports facilities.

## Transfers to the opening and closing ceremonies of the Games:

Opening ceremonies:

- sports village - Atlas Arena - sports village,
- hotel for judges/referees - Atlas Arena - hotel for judges/referees,
- VIP hotel - Atlas Arena - VIP Hotel.

Closing ceremonies:

- sports village - Sport Arena - sports village,
- hotel for judges/referees - Sport Arena - hotel for judges/referees,
- VIP hotel - Sport Arena - VIP Hotel.

## Transfers as part of other official events:

- number of vehicles on request.

**Each person with EUG Accreditation Card can travel by city public transport for free (18 tram lines, 46 bus lines and 9 night bus lines are available). You can also travel for free by official EUG rail carrier Łódzka Kolej Aglomeracyjna in all directions. Remember to take your Accreditation Card!**

## SAFETY AND SECURITY

### Safety and Security in Lodz

The safety and security of all the participants at the EUG 2022 is of utmost importance to the Organizing Committee. Even though Lodz is a safe and secure city, please take good note of the following safety tips recommended by the OC. During the EUG 2022 all security measures will be provided by the private security company working in strict cooperation with the Police and Municipal Police.

### Safety in Accommodation

The security guard is present in all accommodation facilities in case of emergency.

Remember to always lock your room when you leave, even only for a few minutes.

Do not facilitate access to strangers.

Never lend out your room or residence keys to anyone.

Inform the accommodation staff of any lock defects or lost keys.

All accommodation areas will be additionally protected by patrol group, which will be ensuring participants safety.

### Safety on the Street

Lodz is a relatively safe city, but at night in isolated areas you should avoid walking alone. Be aware of your surroundings when walking outside, especially if you are listening to music on your headphones or talking on your mobile phone. Avoid carrying your original passport and important documents (make copies and carry these instead). Avoid exposing cash or expensive items. Do not leave laptops, books, or other valuable belongings unattended in common areas. Respect pedestrian walk lights and crosswalks.

### Safety on Public Transport

When on bus or tram be aware of your surrounding and do not put valuable items in easy to access pockets.

Pickpocketing is not common in Lodz, but it happens. If you are the only passenger on a bus or tram, sit as close as possible to the driver. At night, be particularly careful of oncoming traffic while getting off a bus.

### Non-smoking and alcohol policy

Smoking and drinking is strictly forbidden in all accommodation and sport venues.

### Items prohibited at all venues

The restricted items policy applies to spectators and accredited individuals at the EUG 2022. Accredited athletes and team officials will be permitted to bring items into venues that are required for specific disciplines. Prohibited items will not be permitted into venues under any circumstances.

## SAFETY AND SECURITY

### The list of prohibited items at venues is as follows:

- Placards, spray paint or any other item which could be used for demonstrations or sabotage within a venue;
- All items of an excessive size that may disturb the event or restrict the view;
- Professional recording and streaming equipment;
- Alcohol and intoxicating substances;
- Laser pointers, strobe lights and similar light-emitting devices;
- Pets or animals;
- Knives and bladed items;
- Firearms and ammunition, including replicas, component parts or any device resembling a firearm;
- Offensive weapons or implements such as flick knives and extendable batons, or anything that can be used to cause injury to another person;
- Fireworks, explosives, flares and smoke canisters;
- Toxic and dangerous materials.

EUG 2022 Security reserves the right to refuse entry at its discretion of any item that appears suspicious.

**GAMES**  
**EUSA**

# Events & Ceremonies

Opening Ceremony

Closing Ceremony

Award Ceremony

Educational & Side events

## OPENING CEREMONY

During the opening of EUG Lodz 2022, the eyes of the entire sporting Europe will be focused in one place, on Atlas Arena - the largest sports and entertainment hall in Lodz. The facility, which can accommodate over ten thousand people, will host nearly 6,000 athletes, volunteers, judges and referees, who will proudly walk the boards of the iconic hall in Lodz, presenting their universities to an audience of several thousand people. Representatives of the highest state bodies, fans and residents of the city will be seated in the stands. The scenario of the event envisages transporting the audience to the world of music through the choir, orchestra and vocalists. All this will be presented on a large LED screen.

Ensuring that the ceremony, which will be broadcast live, runs smoothly depends on its time-consuming preparation. Hundreds of hours of rehearsals, careful elaboration of scenographic elements and analysis of the smallest details will allow us to leave a memento for future generations of this unique musical and visual show.

During the Opening Ceremony, the four acts of the musical show we we will see:

- Host Country - Poland
- Host and Partner City - Lodz
- Host University - Lodz University of Technology
- Sport through AZS and EUSA sports disciplines

**The opening ceremony will take place on 17.07.2022 at 21:00 in Atlas Arena,  
address: Bandurskiego Street 7, Lodz**

## CLOSING CEREMONY

The closing ceremony will take place just after the exciting handball final. During the ceremony we will witness a large-format 3D laser-multimedia spectacle, providing spectacular visual effects and at the same time combining an artistic work with an entertainment event. The compositional grandeur of colours, forms, lights and music forms the basis for a breathtaking laser and mapping spectacle. The splendour of the laser colours, the dynamism of the images, the attractive form and graphic complexity of the animations create a sublime production. Rays pulsating in perfect synchronization with sound create phenomenal, spectral spatial constellations. During the show, sports disciplines will be visualized with an emphasis on the shape of the silhouette of athletes, courts, rackets, balls. To achieve an astonishing effect, we will use a large-area projector for videomapping and laser lighting. An image synchronised to music and projected onto the vast surface of the handball court will sum up the two weeks of athletes' struggles and symbolically close the 6th European Universities Games

**The closing ceremony will take place in Sport Arena on 30.07.2022 at 19:00  
address: Unii Lubelskiej 2 street, Lodz.**

## AWARD CEREMONY

All Award Ceremonies will take place at the venues of final competitions, mostly, immediately after official results have been announced – approximately 15 minutes after the finals. The medal ceremony will be held at 14 sports venues where the final matches are held.

Award winners are kindly requested to:

- approach the Award Ceremony area dressed in university sports outfit, or competition uniforms, if requested by sport;
- approach the Award Ceremony area within 15 minutes upon completion of the finals;
- follow instructions given by staff members and volunteers;
- during all Award Ceremonies medals, cups and other special prizes will be awarded in accordance with the EUSA Regulations;
- No country flags will be allowed on the podium.

## EDUCATIONAL & SIDE EVENTS

Educational and side events will take place during the event – for participants, volunteers and public. Educational programme is supported through the Erasmus+ programme of the European Commission.

### Educational events

- Seminar on sport for people with disabilities;
- Workshop on social inclusion of people with disabilities;
- Ecological workshop;
- Conference on volunteering in sport;
- Workshop on cooperation possibilities in the frame of Erasmus+ programme;
- Innovation in sports workshops;
- Events for volunteers – EUG Quiz, Language Exchange Tandem, Eurodinner, City Game, Beach sports event and more.

### Sambodrom

All athletes, judges, volunteers and fans will have the opportunity to walk together in a colorful parade along the representative street – Piotrkowska street from the Unicorn monument / clock measuring time to the EaEU to Plac Wolności (Freedom Square). The whole route measures 2 km, and the participants will overcome it on foot in samba rhythms and in the company of dancers and numerous artists.

### Erasmus run

6th Erasmus Run - on July 24, 2022 along Piotrkowska Street in Lodz  
The event is free and consists in the competition of relay teams (4-person), running as part of one series, over a distance of 10 km, in the formula of 10 x 1 km laps.  
The event will also include a run of about 300 children participating in children's runs in 6 age categories.

The main point of the Run are:

- promotion of physical activity and sport at local, regional and European level under the Erasmus + programme, including Erasmus + Sport;
- promoting volunteering in sport, equal opportunities and greater participation and equal access to sport;
- raising awareness of the importance of physical activity and a healthy lifestyle;
- promoting the involvement of young people and organizations in solidarity activities.

# Sports & Venues

Sports  
Competition Venues  
Sport Equipment

## SPORTS

### BADMINTON

Badminton is a racquet sport played using racquets to hit a shuttlecock across a net. Games are played on a rectangular indoor court. Points are scored by striking the shuttlecock with the racquet and landing it within the opposing side's half of the court.

The game developed in British India from the earlier game of battledore and shuttlecock.

European play came to be dominated by Denmark but the game has become very popular

in Asia, with recent competitions dominated by China. In 1992, badminton debuted as a Summer Olympic sport with four events: men's singles, women's singles, men's doubles, and women's doubles; mixed doubles was added four years later. At high levels of play, the sport demands excellent fitness: players require aerobic stamina, agility, strength, speed, and precision. It is also a technical sport, requiring good motor coordination and the development of sophisticated racquet movements.

Badminton joined EUSA Family in 2004 when 1st European Universities Championship were played. Last competition was played in 2019 year in... Łódź (Poland). Over 100 participants representing 15 universities from 11 countries took part in the 12th edition of the EUC

### BASKETBALL 3x3

Year 2021 was historical moment when 3x3 basketball has debut during 32nd Olympic Games which took place in Tokyo, Japan. 3x3 is considered as most popular urban sport worldwide. Characteristic yellow-blue ball, one hoop, half of the court and 6 players, this is enough to play 3x3 basketball. The best competitions as World Cups and FIBA World Tours are played in shopping malls or iconic places. Due to COVID-19 pandemic situation

worldwide, European University Games 2020 in Serbia didn't take place. 3x3 basketball during European University Games 2022 in Lodz will be played in Geyer Gardens. Local Organizing Committee will provide all necessary infrastructure to give opportunity for participants to play 3x3 on high top level. During EUG 2018 in Coimbra, in men's category gold medal won Vytautas Magnus University from Lithuania. Women's category winner was University of Pitesti from Romania.

### BASKETBALL

Basketball is one of the world's most popular and widely watched sports and one of the most enthusiastic and competitive sports in university sports. The game has many individual techniques for displaying skill — ball-handling, shooting, passing, shot-blocking, and rebounding.

Invented in 1891 by Canadian-American gym teacher James Naismith in Springfield (USA),

basketball has evolved to become one of the world's most popular and widely viewed sports.

Basketball is a sport which started EUSA sport events as they are now. The first EUC were organised in Aveiro (POR) in 2001. Last tournament was played in 2019 Poznan (POL) with over 400 athletes making up 14 men's and 12 women's teams, representing 22 universities from 14 countries. In the men's finals, the title of champions went to Italy's University of Bologna and in the women's finals to University of Strasbourg.

### BEACH HANDBALL

Beach Handball is a sport with a simple structure, very few restrictions, easy rules and acrobatic skills. The main principle of this sport is the spirit of Fair Play.

It was Italian coach Simonetta Montagni who first began developing handball on the beach at about the same time as the players in the Netherlands began experimenting with

## SPORTS

the new trend sport. In 1990, the newly elected president of the Italian federation, Ralf Dejaco, recognized the attractiveness of the sport and asked the Italian coach, Luciano Bartolini, to begin work on the first set of rules for the game. Bartolini developed a concept for a quick and spectacular game with a goalkeeper and three court players per team and a substitution area the full length of the court.

The original rules were adapted, tested and modified constantly while the general popularity of beach handball increased all over Europe, proved by the first ever European-wide calendar of beach handball events in 1997.

It was to take just 10 years until the young game of beach handball was to become an official EHF sport – with the organization of the very first EHF Beach Handball European Championship in Gaeta, Italy in 2000.

The EHF was fully aware of the development and started several activities such as the first coaches' course in 2005, the implementation of the European Beach Handball Tour (ebt) in 2003 and the installation of the EHF Beach Handball Commission in 2007

This rapid development of the sport, which includes the first ever Beach Handball World Championship in 2004 in Egypt, has not reached its end.

Polish Handball federation with the local organizer was a host of the Beach Handball EHF EURO 2019 in Stare Jablonki. With the participation of 20 men's and 20 women's teams that was the biggest ever championship in beach handball.

Having already made its debut at the 2018 Youth Olympic Games hopes are high that the sport can become part of the senior Olympic program.

Since 2018 Beach Handball become a part of EUSA family with first EUSA EHF EUC held in Zagreb 2019.

With a passionate and dedicated community behind it, it would be the ultimate achievement for a fledging sport whose journey has only just begun.

### BEACH VOLLEYBALL

Initially, volleyball was perceived as a form of entertainment and was popular mainly in the USA. Since 1996 beach volleyball has been a variety of volleyball which is an Olympic discipline.

Beach volleyball is a team game which is mainly determined not only by a court surface but also by harsh and variable weather conditions.

In Poland beach volleyball is a very popular sport, perfectly exemplified by successes achieved in the European or World Championships and Olympics.

Over 120 participants from 43 universities and 22 different countries were present in Koper, Slovenia for the 12th edition of the European Universities Beach Volleyball Championship.

In the women's competition, an extremely tense gold medal was won by Eva Pfeffer and Franziska Friedl from Vienna University, who beat University of Warsaw's Izabela Błasiak and Paula Slonecka. The men's final ended in an unexpected manner, as a severe storm hit the Slovene coastal region, forcing participants, spectators and organizers indoors. After a lengthy delay, EUSA officials decided to split the gold medal among both Austrian finalists, with Peter Eglseer and Florian Schnetzer (University of Linz) and Felix Friedl and Maximilian Trummer (University of Graz)

### CHESS

Chess probably comes from India. According to historical sources, this game was known in Persia in the 1970s. VI century. Over time, this game became popular in Europe. In the Renaissance era, the first chess textbooks appeared. In 1886, the first official match for the world title was played between the Polish chess player Johannes Zukertort and the Prague-born Wilhelm Steinitz. Steinitz won the duel and became the first world chess champion. The

## SPORTS

current form of the game emerged in Southern Europe during the second half of the 15th century after evolving from chaturanga, a similar but much older game of Indian origin. Chess has long been recognized throughout the world as a builder of strong intellects. It promotes logical thinking, instills a sense of self confidence and self worth, and improves communication and pattern recognition skills. It teaches the values of hard work, concentration, objectivity, and commitment

### FOOTBALL

The contemporary history of the world's favourite game spans more than 100 years. It all began in 1863 in England, when rugby football and association football branched off on their different courses and the Football Association in England was formed - becoming the sport's first governing body.

Globally, football is played by over 250 million players in over 200 nations, and has the highest television audience in sport, making it the most popular in the world.

Football was added to the EUSA events in 2003 when the 1st European Universities Championships were played. In 2019 over 600 participants representing 32 Universities from 16 countries took part in the 13th edition of EUC held in Madrid, Spain. In men's finals, the title of champion went to Russia's Kuban State University who won a thrilling final match against Ternopil Volodymyr Hnatyuk National Pedagogical University from Ukraine, with the final score line reading 4-2 to the Russians. Portugal's Coimbra University were crowned champions in the women's competition, beating German rivals Frankfurt University 2-1 in a closely-fought encounter.

### FUTSAL

Unlike some other forms of indoor football, the game is played on a hardcourt surface delimited by lines; walls or boards are not used. Futsal is also played with a smaller harder ball. The surface, ball and rules create an emphasis on improvisation, creativity and technique as well as ball control and passing in small spaces.

Futsal is one of the most dynamically developing sports in Poland, what is reflected in a growing interest among fans, the media as well as sponsors. Our league is on an increasingly higher level both sports and organisation wise. It is enough to say that the biggest clubs from traditional football such as Legia Warsaw, Piast Gliwice or Widzew Łódź already have futsal sections, which encourage young people to practice this type of football and attract a lot of their fans. Our national team, after a long break, qualified for the second consecutive time to the finals of the European Cup, suggesting we have established ourselves among the top teams in Europe. The Polish club champion Rekord Bielsko-Biała is in the Top 16 teams in Europe as well.

Polish futsal is strongly associated with academic sport. On a central level we have got many academic teams, which compete with the best teams in the country with a good result. These schools are often the first stage in the development of the best players, who later become national team players. They have also made a mark in the history of EUSA GAMES.

A total of 436 participants representing 26 Universities from 12 countries took part in the 2019 European Universities Futsal Championship in Braga, Portugal, the 12th in EUSA's history. In men's finals, University of Malaga from Spain were crowned champions after their 5-1 victory over Karazin Kharkiv National University from Ukraine. It was a double victory for Spain as University of Murcia claimed the gold medal in the women's competition after a 3-1 win against Germany's University of Munster.

## SPORTS

### HANDBALL

Handball is a team sport in which two teams of seven players each (six outfield players and a goalkeeper) pass a ball using their hands with the aim of throwing it into the goal of the other team. Players need to have a lot of speed, power, agility and technical skills and it is one of the most competitive in University Sports.

The game was codified at the end of the 19th century in Denmark. The modern set of rules was published in 1917 by Karl Schelenz, Max Heiser, and Erich Konigh, on 29 October in Berlin, which day is seen as the date of birth of the sport.

A total of 350 participants from 22 teams representing 19 Universities from 11 different countries took part in the 10th edition of the European Universities Handball Championship in Bydgoszcz, Poland. In the closely-contested men's final, it was the University of Granada from Spain who emerged triumphant, gaining revenge over German Sport University Cologne who had beaten them earlier in the competition. The Spanish university this time made up for that loss by beating their German counterparts 24-21 to claim the gold medal. Poland's Vincent Pol University in Lublin were a force in the women's competition from the start, going unbeaten the entire competition before overcoming German rivals University of Hamburg 31-25 in the final. This is the fifth time in ten EUSA European Universities Handball Championships that Vincent Pol ended on top of the podium.

### JUDO

Judo was created in 1882 by Jigoro Kano as an eclectic martial art, distinguishing itself from its predecessors (primarily Tenjin Shinyo-ryu jujutsu and Kitō-ryū jujutsu) due to an emphasis on „randori“ instead of „kata“ (pre-arranged forms) alongside its removal of striking and weapon training elements. The objective of competitive judo is to throw an opponent, immobilize them with a pin, or force an opponent to submit with a joint lock

or a choke. While strikes and use of weapons are included in some pre-arranged forms (kata), they are not frequently trained and are illegal in judo competition or free practice. Judo's international governing body is the International Judo Federation, and competitors compete in the international IJF professional circuit.

The European Universities Judo Championship 2019 was held in Zagreb, Croatia as part of the very first edition of the EUSA Combat Championships where over 1300 participants from 404 different universities and 36 countries took part in the biggest European Universities Championship of the summer, which included four sports: Judo, Karate, Kickboxing and Taekwondo.

The Judo competition on its own attracted 300 participants from 125 different universities, hailing from 23 different countries. Following four days of riveting action, it was the University of Strasbourg from France who emerged triumphant as the most successful university in the Judo competition, earning a total of six medals across all categories. Spain's University of Valencia finished second overall, followed by Sunny State University from Ukraine in third.

### KARATE

Karate is a martial art developed in the Ryukyu Kingdom. It developed from the indigenous Ryukyuan martial arts under the influence of Chinese martial arts, particularly Fujian White Crane. Karate is now predominantly a striking art using punching, kicking, knee strikes, elbow strikes and open-hand techniques such as knife-hands, spear-hands and palm-heel strikes.

Historically, and in some modern styles, grappling, throws, joint locks, restraints and vital-point strikes are also taught.

On 28 September 2015 karate featured on a shortlist for consideration for inclusion in the 2020 Summer Olympics. World Karate Federation claims there are 100 million practitioners around the world.

Forming part of the first EUSA Combat Championships, the 9th edition of the European Universities Karate

## SPORTS

Championship took place in the Croatian capital city of Zagreb. The Combat Championships were made up of four sports, namely Judo, Karate, Kickboxing and Taekwondo, with over 1300 participants from 404 different universities and 36 countries taking part across all four competitions.

A total of 446 participants took part in the Karate Championship, hailing from 172 universities and 30 different countries, making it the biggest of the four Combat Sports at the Championship.

At the end of the four days of highly competitive and intense match-ups, hosts University of Zagreb from Croatia grabbed top spot on the podium in the Mixed Team Competition, followed by North Macedonia's St Cyril and Methodius University of Skopje in second place and Istanbul Aydin University from Turkey in third.

### KICKBOXING

Kickboxing is a group of stand-up combat sports and a form of boxing based on kicking and punching. The combat takes place in a boxing ring, normally with boxing gloves, mouthguards, shorts, and bare feet to favor the use of kicks. Kickboxing is practiced for self-defense, general fitness, or for competition. Historically, kickboxing can be considered a hybrid martial art formed from the combination of elements of various traditional styles. This

approach became increasingly popular since the 1970s, and since the 1990s, kickboxing has contributed to the emergence of mixed martial arts via further hybridization with ground fighting techniques from Brazilian jiu-jitsu, and folk wrestling.

For the very first time, Kickboxing formed part of the 2019 EUSA Championships, forming part of four sports making up the 2019 Combat Championships alongside Karate, Judo and taekwondo, which took place in the Croatian capital Zagreb.

Over 1 300 participants were involved across all four sporting competitions, with Kickboxing contributing 237 participants from 101 universities and 20 different countries. At the end of the fourth day of action, it was the University of Physical Education from Hungary who emerged victorious with five gold medals as they took the honours in the mixed team competition. Finishing behind the Hungarians was Charles University from the Czech Republic, Ukraine's Ivano-Frankivsk College of Physical Education, National and Kapodistrian University of Athens in Greece and Ireland's Technological University Dublin, who all ended on the same amount of points.

### TAEKWONDO

Taekwondo is a Korean martial art characterized by punching and kicking techniques with emphasis on head-height kicks, spinning jump kicks and fast kicking techniques. Two competitive formats exist for taekwondo: Poomsae and kyorugi.

Taekwondo has become an official Olympic sport since Olympic programme of the Sydney 2000 Olympic Games.

After being a part of the World University sports programme since 1986, Taekwondo events have been contested at Universiade since 2003 Games in South Korea. This spectacular discipline gathers more and more students from around the world. With increasing number of the European student competitors, taekwondo was included within EUSA Program since 2009. The Poomsae competitions were included at the 3rd edition of EUG 2016 in Croatia.

Changes in the scoring method are being implemented to increase the accuracy and fairness of the scoring process. In the past, the scores were determined based on the subjective judgment of the referees. However, the electronic protector and scoring system (PSS) was developed and introduced in order to achieve better objectivity and transparency in scoring process. Since its introduction in 2006, the upgraded electronic Protector and Scoring System (PSS) was first adopted for Olympic competition at the London 2012.

Today, taekwondo is practiced by an estimated 80 million people in 209 countries, administered by five

## SPORTS

Continental Unions - making it one of the world's most popular sports. European Taekwondo Union (ETU) is the official continental governing body of the European Taekwondo.

Successful and skilful practitioners of taekwondo are all around the world, but in Poland as well. Polish Taekwondo has top class athletes who have won medals at the WT sanctioned official international championships.

### TABLE TENNIS / PARA TABLE TENNIS

Table tennis is an ideal sport to attract people of all ages, irrespective of gender, cultural, social background or physical ability. It is a very healthy leisure activity with multiple benefits, both for physical and mental health. At the same time, it is fun. Portuguese Table Tennis is currently an international reference among youngsters having Marco Freitas as a role model. In 2014 in Lisbon Portugal became European Champion in the team competition with Marcos Freitas, Tiago Apolonia and João Ribeiro. This year is the 4th edition of the

European Universities Games and in the last edition the winners of the men's and women's team tournament was the Russian State University for the Humanities (RUS). In the Mens Team competition, the Angelus Silesius State School of Higher Vocational Education in Walbrzych (POL) came out on top of the competition, with convincing performances, and the the Kazan Innovative University named after V.G. Timiryasov (RUS) won in the Womens Team competition. Fertikowski & Floras, from the Angelus Silesius State School of Higher Vocational Education in Walbrzych (POL) won the Mens Doubles competition. In the Womens Doubles, the pairs team of Wabik & Nowacka, from University School of Physical Education in Wroclaw (POL) took home gold. In the Womens Singles, Anna Blazhko from the Kazan Innovative University named after V.G. Timiryasov (RUS) won a convincing final match to take gold. Angelus Silesius State School of Higher Vocational Education in Walbrzych (POL) won once more in the Mens Single, with Robert Floras winning the final match. Back in the 2016, the Mens, and the Womens Team competition was won by Russian State University for Humanities (RUS). Shamin & Pulnyy, Russian State University for the Humanities (RUS) in men's doubles and Gencay Menge, Marmara University (TUR) in men's singles. In women's category, Sikorska and Bak, Kozminski University (POL) won the title in doubles, with Sikorska also winning the champion's title in singles.

### SPORT CLIMBING

Sport climbing, is a form of rock climbing that relies on permanent anchors (or bolts), permanently fixed into the rock for climber protection, in which a rope that is attached to the climber is clipped into the anchors to arrest a fall; it can also involve climbing short distances with a crash pad underneath as protection.

Since sport climbing routes do not need to follow traditional climbing route lines where protection can be placed into natural features (e.g. cracks), they tend to follow more direct lines up crags. This aspect, in addition to the lack of any need to install protection during the climb (e.g. the sport climber just clips into pre-installed bolts along the climb), results in different styles of climbing between sport rock climbing and traditional rock climbing.

Sport climbing made its Olympic debut at the 2020 Summer Olympics in Tokyo, Japan, and was previously tested at the 2018 Summer Youth Olympics.

The first edition of the European Universities Sport Climbing Championship was held in 2015 in Katowice (Poland), prepared in close cooperation with the International Federation of Sport Climbing (IFSC) and consisted of competitions in Speed, Bouldering, Lead, as well as featured the Dyno Jumping Contest and T-Wall Bouldering Cup.

### SWIMMING

Swimming is an individual or team racing sport that requires the use of one's entire body to move through water. The sport takes place in pools or open water (e.g., in a sea or lake). Competitive swimming is one of the most popular Olympic sports, with varied distance events in butterfly, backstroke, breaststroke, freestyle, and individual medley. In addition to these individual events, four swimmers can take part in either a freestyle or medley relay. A medley

relay consists of four swimmers who will each swim a different stroke, ordered as backstroke, breaststroke, butterfly and freestyle.

Swimming each stroke requires a set of specific techniques; in competition, there are distinct regulations concerning the acceptable form for each individual stroke. There are also regulations on what types of swimsuits, caps, jewellery and injury tape that are allowed at competitions.

Swimming is debuting in Łódź as a part of EUSA events.

### TENNIS

Tennis is a racket sport that can be played individually against a single opponent (singles) or between two teams of two players each (doubles). Each player uses a tennis racket that is strung with cord to strike a hollow rubber ball covered with felt over or around a net and into the opponent's court. The object of the game is to manoeuvre the ball in such a way that the opponent is not able to play a valid return. The player who is unable to return the ball validly

will not gain a point, while the opposite player will.

Tennis is an Olympic sport and is played at all levels of society and at all ages. Tennis is played by millions of recreational players and is also a popular worldwide spectator sport.

Tennis players from Poland in the last 10 years are working very well. The current player number 1 on WTA is Iga Świątek, as well as Hubert Hurkacz who is 14th player on the ATP ranking. Poland hosts ATP Challenger and WTA tournaments.

Tennis joined EUSA EUC in 2004. Over 130 participants representing 27 Universities from 18 countries took part in the 2019 European Universities Tennis Championships, which took place in the capital city of Montenegro, Podgorica. After six days of action on the clay courts in Podgorica, Kozminski University from Poland emerged victorious in the men's competition, edging France's University of Lille to the title, with Istanbul Bilgi University from Turkey finishing third. In women's competition, Istanbul Aydin University from Turkey was awarded the gold following their victory over France's University of Bordeaux, with compatriots University of Grenoble Alpes claiming the bronze medal.

### VOLLEYBALL

Volleyball is undoubtedly one of the most important and popular team sports in the world. As a sport discipline, it is also most often associated with the academic environment: students play volleyball often and willingly, and clubs operating in cities are usually associated with universities there.

Its rules are simple and the game is fast and dynamic. Volleyball is an elite sport due to the culture of practicing and cheering for it, and a mass sport, too, due to its universal availability and low costs for all who practise it.

Poland has a very good volleyball tradition, we are proud of both the male and female representation of our country in this discipline. Over the past years, both our national teams have often won medals at the most important international events. Our gentlemen are the current champions of the globe: they won the title at the

### WATER POLO

Water polo was established at the end of the 19th century in Great Britain, in Scotland to be precise. The first training sessions took place in Glasgow swimming pools and the rules were developed by William Wilson in 1876. Since 1900, water polo has been an Olympic sport, although only for men. The first Olympic tournament for women was played at the 2000 Sydney Games. The development of the sport is handled by

the World Swimming Federation.

Besides the Olympics every 2 to 4 years since 1973, a men's Water Polo World Championship is organized within the FINA World Aquatics Championships. Women's water polo was added in 1986. A second tournament series, the FINA Water Polo World Cup, has been held every other year since 1979. In 2002, FINA organised the sport's first international league, the FINA Water Polo World League.

There is also a European Water Polo Championship that is held every other year.

Professional water polo is played in many Southern and Eastern European countries like Serbia, Croatia, Montenegro, Greece, Hungary, Italy, Russia, Spain, etc. with the LEN Champions League and Euro Cup tournaments played amongst the best teams.

last tournament held before the pandemic - in Turin, Italy, in 2019. They won this title twice in a row. The Poles also took third place in the two most recently played European championships - in 2019 and 2021.

Our ladies are also doing well: they won fifth place at the last European Championships, 2021. Earlier, in 2003 and 2005, they were unbeaten at this tournament. They also won bronze medals at the 2009 European Championships, held in Poland, including at the Atlas Arena in Łódź.

As there are as many as nine universities in Łódź, and students play volleyball at each of them, it is certainly one of the best places to play the tournament of this discipline under the EUG 2022.

Young adepts of this discipline often grow up in Łódź volleyball centers, and then continue their careers in the best clubs in Europe and in the world.
